

Notions chimiques et physico-chimiques sur le principe du nettoyage

Session de formation permanente organisée par le département des restaurateurs

Paris, 15 & 16 janvier 2018

Orientations bibliographiques réalisées par la bibliothèque de l'Inp

Tous les documents ci-dessous peuvent être consultés à la Bibliothèque de l'INP, à l'exception de ceux précédés d'un astérisque.

Les mémoires de fin d'études de l'Inp sont accessibles en ligne. Pour pouvoir les consulter, vous devez préalablement demander l'autorisation au service de la documentation des œuvres par courrier électronique à documentation.oeuvres@inp.fr. Un identifiant et un mot de passe personnels vous seront attribués.

Le nettoyage : principes et méthodes

CREMONESI Paolo, *Materiali e metodi per la pulitura di opere policrome*, Bologna, PHASE, 1997, 142p.

CREMONESI Paolo, « Un Approccio Metodologico alla Pulitura dei Dipinti », In *Lo Stato dell'Arte, Conservazione e restauro, Confronto di Esperienze, atti del I Congresso Nazionale IGIC*, Torino, IGIC, 2003, p. 100-109

Materiali Tradizionali ed Innovativi nella Pulitura dei Dipinti e delle Opere Policrome Mobili, primo Congresso Internazionale Colore e conservazione – Materiali e Metodi nel Restauro delle Opere Policrome Mobili, atti del Convegno Piazzola sul Brenta (PD), 25-26 Ottobre 2002, Padova, Il Prato, 2003
